PACIFIC NEWS.

Saturday, September 15, 1849.

The Constitutional Convention.

As our readers are already informed, our arrangements though made in the fullest and most complete manner, and at a very heavy expense, for the purpose of laying before our readers the earliest and most ample report of the doings of this important body, now in session, have failed in consequence of the detention or miscarriage of the package sent by our reporter, and we are reduced to the necessity of depending upon the casual reports in circulation about town, for all our information respecting the Convention, until the arrival of the Monterey mail, which is due this evening. We trust that our package sent by this opportunity will *not* miscarry, but come to hand in time for our next sheet.

We hear it stated that in the early part of the present week the Convention had already progressed so far in its business as to be engaged in the consideration of the *Bill of Rights* to be prefixed to the Constitution, and that one of the clauses of the Bill already determined on was a provision prohibiting the existence of Slavery in the State of California. We have understood that this provision was *unanimously* adopted by the Convention. Our expected report will doubtless, however, bring us exact and authentic information on the subject.

We entertain no doubt that we speak the universal sentiment of our community when we express the hope that the Convention may, as soon as may be consistent with due deliberation, terminate its most important and interesting labors by the adoption of a State Constitution. In our country of free Constitutions, these labors are greatly abridged and facilitated by the variety, and number, and excellence of the *models* which the Convention will have before it, in the State Constitutions of the several States of our Federal Union. We suppose that of course the Constitution which the Convention may adopt, will lay the foundation and prepare the way for a speedy and permanent organization of a State Government in all its departments, Legislative, Executive and Judicial. Such a consummation is eagerly waited for by our community, and will doubtless be warmly welcomed by the people, The present provisional organization of the public authority, while it has commanded general respect and good will by its efficient and able maintenance of the public order, must, from its very nature, and in spite of the best efforts and intentions of those who administer it, be found inadequate to meet all the exigencies arising in the varied transactions of our rapidly augmenting population. It is in fact a subject of just pride and congratulation to us, as Californians and as Americans, that our present government, instituted in circumstances of so much difficulty, has, in the general, done so much and so well in its endeavors to protect the public weal.

We do not permit ourselves to apprehend that any serious difficulty will be made by Congress at Washington as to the prompt admission of California into the Union as a State. After the failure —perhaps inevitable under the circumstances—of that body to provide for this most interesting region any form of territorial Government, it cannot be for a moment supposed that the Federal Government will look otherwise than with favor upon the efforts of California to solve for herself the problem of her own social organization, by the adoption after the approved and time-honored American fashion of a State Constitution, which while it guaranties here to every man his public and private rights, is also to place another star in that glorious national banner of Union which now floats so proudly before the admiring eye of the world!

CASSIUS M. CLAY'S SON.—In the recontre betweeh C. M. Clay and Mr. Turner, we learn that a brother of Turner rushed to the rescue, stabbing Mr. Clay, whereupon a son of Mr. Clay, aged about 12 years, without one moment's deliberation, rushed on his *father's assailant*, thrusting a large knife into him, whom our readers are aware is since dead. The little hero also procured a pistol for his father to kill Turner, the one he had stabbed, but the father, who for the moment was speechless, heeded not his importunities. [Cin. Commercial, 23d.

MUTINY AND OUTRAGE.—Owing to the high wages that seamen are receiving in the merchant service in this port (being from one hundred and thirty to one hundred and fifty dollars per month) compared with the wages paid to ordinary seamen in the naval service, the greatest difficulty has been experienced, and the strictest surveillance been required on the part of the officers, to retain a sufficient number to navigate the ships attached to the squadron on this station. On Thursday evening last, a bold attempt of the most brutal character was made by the boat's crew of the U. S. schooner Ewing, to effect their escape. Soon after leaving the dock at about 11 o'clock, in charge of Lieut. Gibson, on his return to the vessel, the men suddenly sprang upon their officer, and before he was aware of their intention, or had power to repel this attack, seized and threw him overboard, making their escape to the shore. Although taken wholly by surprise, the gallant young officer dragged into the water with him two of his heartless assailants. Here a desperate struggle ensued, and single handed he contended with the two, aided by their three companions in villainy who had possession of the boat, till finding his strength exhausted and himself in danger of sinking from the weight of his clothes, he gave up the unequal contest. It was now with the greatest difficulty that he kept his face above water, altho' a strong swimmer. His cries for assistance were heard from the shore, accompanied (as a gentleman remarked, who hurried out in a boat) with the "gurgling sound" of a drowning man. Happily a boat happened to be passing, and assistance was rendered in time barely sufficient to save the life of the officer He was taken to the U. S. Hotel, pulseless and apparently lifeless, where by the prompt, efficient and most judicious treatment of that skilful surgeon, Dr. Bowie, of the navy, respiration was established and the circulation gradually restored. Dr. Coit was subsequently called in consultation, and it was not till the expiration of some hours that the gentleman could with prudence be left by his medical attendants.

The perpetrators of this outrage have not only proved faithless to their flag, but have been guilty of the highest crime known in the military code—mutiny and attempt to compass the death of an officer. A detachment from the men-of-war are now in pursuit of the conspirators, and they will doubtless soon be in custody.

Lieut. G., although still suffering great difficulty and pain in respiration, we are happy to learn, is considered out of danger, and will soon be able to resume his duties.

NUISANCE AND GROSS CRUELTY. In passing the butcher's stand, opposite the Revere Hotel, on Tuesday morning last, I noticed several calves lying on the opposite side of the street, with their legs tied. I passed there on Wednesday afternoon and saw them lying still in the same position, but motionless, as if dead. I touched one of them with my foot to ascertain if it was really alive. I could not refrain from saying a few words to the proprietor regarding the cruelty of such a course. This morning (Friday) in passing there again I found to my astonishment that the same calves were lying there still. Any one may conceive the starved, weak and feverish condition of these poor animals, thus kept tied and without food for so many days. And yet these animals thus diseased by the most shameful neglect and cruelty, are to be palmed upon the community as "choice veal," when, in fact, they are calculated to impart disease to all those who are so unfortunate as to ignorantly partake of such food. P.

I. O. OF O. F. A large and respectable meeting of the members of the Order assembled at the room of the Public Institute, on Portsmouth square, in this city, on Thursday evening. Measures were taken for the establishment of a Lodge in San Francisco, and we understand that the committee have engaged a room for that purpose.

☞ The Pacific Weekly News, for the week ending Sept. 14th, will be published this day and ready for delivery at the office of publication, on Kearny street.

UNFORTUNATE OCCURRENCE.—Abraham Shell, late of Albany, N. Y., was arrested at San Jose, Cal., on the 13th inst., on a charge of manslaughter, for causing the death of — Robinson. The particulars, so far as we have learned them, are: Shell hired a scow at San Jose, for the purpose of bringing vegetables to San Francisco. Robinson was engaged to assist Shell in the business of loading the boat. A dispute arose between the parties in the course of loading, but quiet was restored, and the work proceeded. The work being terminated, Shell invited Robinson and others to take a drink, and all proceeded harmoniously to a neighboring groggery for that purpose. After partaking of the liquor, Shell returned to the scow, and was in the act of assisting several females and children, who had engaged passage to San Francisco, on board, having taken a plank, which he was about extending from the beach to the boat, for the accommodation of his passengers. Robinson approached, and seizing hold of the plank, demanded to know what right he (Shell) had with the plank. Shell replied that he had taken it in order that the women and children might walk thereupon to the boat. Robinson then remarked that he had better have asked for it, and ordered him to return the plank from whence he took it. Shell refused to do so, and dropping the plank upon the beach, proceeded towards the boat, being followed by Robinson. Angry words passed between them, and Robinson struck Shell in the face, whereupon Shell inflicted a wound upon his adversary with a knife, which caused his death in some three days after.

Mr. Shell was, previous to his departure for California, a wholesale dealer in groceries, in Albany, and has sustained, up to the time of this unfortunate occurrence, an unblemished reputation. He came here in company with a party of whom he was the President. After their arrival, the company separated—a part having gone to the mines, and others have engaged in different occupations.

We have been thus particular in stating this case, for the benefit of those who may feel an interest in the affair.

ODD FELLOW'S HOSPITAL. At a meeting of Odd Fellows, held at the school room on Portsmouth square, in this city, on Thursday evening last, a committee was appointed to take immediate measures for the establishment of a Hospital for the benefit of the Brothers of the Order, to be sustained by the contributions of the members and by the profits accruing from the nursing of others who may find it necessary to avail themselves of the care and attention of such an institution. The object is a benevolent one and will undoubtedly meet with a ready response from every Odd Fellow. Dr. Benj. B. Coit is chairman of the committee, and those who may feel desirous of co-operating in the establishment of a Hospital of this character, will please call on him at the office of Drs. Turner and Coit, corner of Washington and Pike streets.

COLD WATER PRACTICE.—Last summer (says the New York *Evening Post*,) an Irish girl, on Long Island, attacked with fever and ague, and after being two or three times cured, as it was called by quinine, impatient at the obstinate recurrence of the disorder, ran in the height of the fever and jumped into a mill pond with her clothes on; she came out cured —the disorder never returned. An Ohio practitioner of the name of Cook adopts a similar practice; our readers are aware that with the learned it is called hydropathy. The editor of the *Layfayette Daily Journal* thus describes the method in his own case:—

"He literally dragged me from my bed, forced me under a shower-bath while the chill was full on me, my lips, nose and fingers purple; my teeth chattering, and my whole convulsed body giving terrible evidence of the severe nature of the malady. There he held me, changing my positions under the drip for more than a minute—AND THE CHILL WAS GONE!—It was the second, and of congestive type that I had had in the space of five hours. Next he put me under warm blankets.—I slept for over an hour. Finding the fever to be consuming me, he again pulled me out of bed, and forced me a second time under the bath. In less than five minutes, all traces of the fever had disappeared, and the bath, from having at first been horrible beyond description, became delightful; and I could have stood under it for hours, wooing the droppings of its congenial waters. I came out a restored man."

To the people of the District of San Francisco.

The undersigned tenders to his fellow citizens his acknowledgements for the honor conferred upon him in being selected a Delegate to the State Convention, and also a member of the Ayuntamiento. He is the more sensible of this mark of distinction, as it is the third or fourth occasion that similar confidence has been reposed in him, by his appointment to office during his absence, and when little opportunity was afforded to him to make known his views and sentiments upon the questions of public policy which involved the great interests of the people of California.

It was only a few days before the assembling of the Convention, that information of his appointment as a Delegate reached him on the waters of the Juba, where he had been for several weeks prostrated by severe illness, and he hastened to return in order to take his part in the labors of the Convention. In the feeble condition of his health, he has been obliged to tarry for a while in San Francisco, and as in duty bound, has united in the councils of the Ayuntamiento. He proposes proceeding to Monterey during the present week, and hopes to be yet in time to aid in the deliberations of a Convention which under all circumstances must be regarded as one of the most important that has ever convened since the establishment of the American Republic.

Very respectfully,
Your obd't serv't.
WM. M. STEWART.

CAUTION.—Whereas, one J. A. Sutter has published a notice, in which he claims title to the land on the east bank of the Sacramento river, between the Feather river and the American Fork, I hereby notify the public that I am the only legal owner of the said land, under a warranty deed from J. A. Sutter himself, dated Aug. 10, 1843; and I therefore caution all persons that no legal title can be acquired to the same, or to any portion thereof, except through me. Justice to myself requires me to add that I shall hold the said J. A. Sutter legally responsible, both for the libel on my character, and the slander of my title, which his notice contains; and that if its publication is the result of a conspiracy to defraud me of my property, I shall take care that the offenders be brought to justice as soon as a criminal court before which they can be tried, is legally organized in this territory.

Any person desiring to satisfy himself of my title to the above land, is invited to call on S. Brannan & Co., at Sacramento City, or on the undersigned, at the counting room of E. Mickle & Co., Clay street wharf, San Francisco. HIRAM GRIMES.

TOWN OF BOSTON.—Lots at the town of Boston, beautifully situated at the junction of the American Fork and Sacramento rivers, are now offered for sale. The town of Boston is only a few hundred yards above Sutter's Embarcadero, on the north side of the American Fork, and in the immediate vicinity of the gold mines, and from its situation possesses superior advantages for business purposes. The land which forms the site of the town is twelve feet above the highest water mark, and the river is twenty-three feet in depth at the banks. It is believed that no place offers greater inducements for investments than this town, as in addition to the above mentioned advantages it has a fine climate, good soil, with an abundance of excellent water, and is free from inundation at all seasons. The town has been surveyed by Mr. J. Halls, and laid out in a convenient manner, and a plan of it can be seen, and any other information relating to it obtained on application to HIRAM GRIMES,

NEW YORK OF THE PACIFIC.—The City of New York, of the Pacific, situated at the head of ship navigation upon the bay of Suisun at its junction with the rivers Sacramento and San Joaquin, has been most accurately surveyed by Captain R. P. Hammond, U. S. A., and laid out in the most beautiful and convenient manner, and maps have been prepared by E. H. Rowe, Esq., engineer and land surveyor, pointing out clearly each and every lot within the surveyed limits of the city, and the proprietors now offer them for sale to the public. Along the entire water front of the city, a public street is laid out one hundred and fifty feet in width, beyond which no ground will ever be sold. and the proprietors therefore guarantee to the purchasers of all lots fronting on Water street, that no building shall ever be erected between their purchase and the water. There is no point along the entire water front of the city at which vessels of the largest class cannot lay within thirty feet of the bank of the river, and there are but few points where a large class of vessels cannot come immediately to the bank and discharge their cargoes, and at all points where this cannot be done, wharves will be built by the proprietors as soon as materials for building can be procured. The centre street of the city running North and South is one hundred feet in width, and all the other streets seventy-five feet; the lots are fifty feet front, by one hundred deep, and there is not a lot within the survey unfit for building purposes.

There are three public squares laid out within the survey, which will be given to the city, and the proceeds of the sales of all the lots fronting on the squares will be appropriated to the erection of public buildings. The titles to this property are perfect and complete in every particular.

There will be established immediately at the city a record office in charge of a competent official person authorized to take acknowledgements and record deeds, and where the original title deed to this property will be recorded, and where it is desired that all deeds for lots purchased should be immediately recorded.

The purchasers will be required to make improvements within a specified time.

The advantages of the location of this city over any other above San Francisco, are too well known to all who have either passed up the river Sacramento or San Joaquin to require any comment from the proprietors; but to all persons who have not had the opportunity to examine the site, we say that there is not in all California a point combining so many advantages for business purposes, with the advantages of a fine, healthy climate, dry soil, free from inundation, at every point, throughout the year, a superior harbor for vessels of the largest class, and an abundant supply of pure water at all seasons. To these advantages, we will add that permanent arrangements have been made for two steamers to commence running in all the month of August daily from San Francisco to the new city; and also two steamers of very light draught of water with tow boats prepared to navigate the Sacramento and San Joaquin, and their tributaries, from New York, below which they will not come. For lots or any information connected with the city of New York of the Pacific, apply at the office of the proprietors in Portsmouth square, San Francisco, and at the city of New York.

TOWN OF SUTTER.

(LATE SUTTERSVILLE.)

This town has has just been re-surveyed and laid out by Lt. J. W. Davidson, of the U. S. A., and lots therein are now offered for sale here, by the subscribers, and at the Town by George McDougald & Co. This town is beautifully situated upon the east bank of the Sacramento, within about two miles of Sutter's Fort, having a fine road leading therefrom direct to the mining region, and is some six miles nearer the mines by this road than any other embarcara point upon the river. A direct road is also being made on the opposite side of the river, which will, when completed, save 74 miles land travel to the mines. The locations upon the river banks for business purposes are never subject to overflow by the highest water known on the river, and the high ground back is the most desirable location for a residence of any point that can be selected upon the banks of the Sacramento.

TOWN OF SANTA CRUZ.

The survey of this Pueblo, one of the oldest in California, has recently been corrected and mapped by Lieut. Williamson, U. S. A. It is situated in the Bay of Monterey, and presents more advantages for an agreeable residence than any other in California, for it is well known that at no part of the whole country is the climate purer, water better, soil more fertile, and where so unlimited a supply of lumber and timber for building and fencing purposes can be procured at prices nearly as low as the United States. The town and planting grounds are laid out in lots of 50 varas square, a large number of which are now offered for sale at very moderate prices by the subscribers.

SAN FRANCISCO.

Some of the most desirable locations for private residences or business purposes in this town, can be purchased or leased of the subscribers.

Maps of the city of New York of the Pacific, the towns of Sutter, Santa Cruz, and San Francisco can be seen at the Land Office of the subscribers on Clay street, south side Portsmouth square.
